

# Güteschutz Beton

## Certificate of usability in buildings

(Reg.-No. 1368.7.149-1)

In accordance with the monitoring and certification regulations of Güteschutz Beton (ÜZO), Part 7, this certificate applies to the following construction products

**Prefabricated parts made of concrete, reinforced concrete or prestressed concrete in accordance with harmonised product standards for load-bearing purposes  
- Product group 6.30 -**

manufactured by

**Kokoszki Prefabrykacja S.A.  
ul. Budowlanych 54A • PL-80-298 Gdańsk**

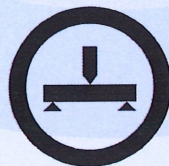

As a recognised body according to Art. 43 CPR, we certify that the above-mentioned construction products comply with the national requirements of the

**Administrative Regulation Technical Building Regulations  
Section A 1.2.3 and Annex ABUG**

and the existing requirements document for the products (see [www.abid-bau.de](http://www.abid-bau.de)). An independent assessment was carried out on the basis of the national technical building regulations / established technical rules. In addition to the System 2+ for the assessment and verification of constancy of performance, continuous, voluntary external monitoring in accordance with DIN 18200 and ÜZO Part 7 is carried out by Güteschutz Beton.

Independent material tests are regularly carried out on the construction products and the raw materials, concrete production and processing, production processes, qualification of personnel, implementation and documentation of the factory production control, delivery documents including external presentation and labelling of the products are checked in the factory.

The products comply with the recognised rules of technology and are suitable for use in Germany. The manufacturer is authorised to label the construction products with the quality mark in accordance with no. 010380756 OAMI/OHIM.

The validity of this certificate can be checked by scanning the QR code.
